Description

The project aims at sustainable development and improved quality of life of the community in a remote area of Rusinga Island. Under the project, a health care center will be operated, and basic health services will be provided for the residents of Rusinga Island, with special emphasis on children and mothers, and patients with HIV / AIDS, and tuberculosis. The target group consists of approximately 10,000 people. The construction of X-ray department will expand the health care facility. An orphanage building will be constructed as part of the existing community center.
