Implementing Organization Code	Other
Geo Location	
Longitude	
Latitude	
Start of Commitment	2013-09-03
End of Commitment	2015-01-19
Currency	EUR
Status	OECD approved

#### Description

The proposed project aims at continuing the technical support for the advancement of environmental legislation in Moldova and its harmonization with the legal framework of the European Union, with particular focus on improvement of the environmentally sound management of waste in the Republic of Moldova. It represents the continuation of a successful project SAMRS/2011/06/01 where a proposal of appropriate management of WEEE as well as a proposal of these of particular waste legislation has been prepared for the Ministry of Environment of Moldova. After the conclusion of the project the Moldavian partners have expressed an enormous interest in continuation of cooperation especially in technical aspects regarding secondary legislation. Taking into account the current development of preparation of the EU-Moldova Association Agreement, the preparation of the national legislation should comply with the EU directives and regulations. Theses for the MoE of Moldova will be prepared based on the experience from the former project and from implementation of legislation of WEEE in Slovakia. These will contain specifications for collection, reuse and recycling and the other forms of recovery of EEE waste as well as requirements for the register and evidence of WEEE producers in Moldova. The aim of the project is in accordance with extended producer responsibility requested by recast Directive on WEEE. The proposed main activities of the project are: 1. Analysis of the current status of legislation related to the WEEE First mission and kick off meeting with project presentation for relevant Moldavian stakeholders is a part of the first activity 2. Preparation of the proposal for secondary legislation Close cooperation with Moldavian legal expert is expected. 3. Development of the register for extended producer responsibility 4. Trainings for ministerial staff The training will be managed by the Moldavian partner focused on ministerial staff to be deeply involved and familiar with the secondary legislation. 5. Final workshop with presentation of the projects outputs Expected project outputs: 1. Report from the analysis 2. Mission report 3. Proposal of secondary legislation 4. Register harmonized with extended producer responsibility 5. Trained
