Currency	EUR
Status	OECD approved

#### Description

The proposed intervention complies with the conditions of the Call for Proposals and especially with Specific Objective nr. 3. The project will contribute to improving the access to potable water of school age children from 4 villages. Also the project will emphasize the Environment awareness raising in the public. The project will support installing in 4 schools from 4 rural localities of Hincesti region of water purification systems. This will have short term and long term impact. The project also supports an awareness rising program that consists of awareness rising among population through radio programs on a radio having a good coverage. The project will support vast number of activities in the schools where the water purification systems will be installed. These activities will be oriented on awareness rising among children and village inhabitants as also empowering a group of children that will become the initiative group. These children will be trained. This group will become an agent of change in the villages, making an assessment in the village of problems in the water and sanitation sector, will formulate solutions, and will implement a small scale project sponsored from the project where they will mobilize more human resources from the village. This and also the agreements with the local public administration for maintaining the water purification systems will also be a sustainability factor for the future.
