Latitude	47.93806
Start of Commitment	2015-10-21
End of Commitment	2017-02-28
Currency	EUR
Status	OECD approved

Description

The overall aim of the project is therefore to support reforms in Ukraine in the field of increasing the energy effectiveness and use of renewable energy resources. Specific objective of the project is to contribute to capacity building in Ukraine to implement the reforms in the energy sector with a focus on increasing the energy effectiveness and use of renewable resources. Project will inform the particular group of representatives from the Ministry of Energy, Ukrainian towns and municipalities as well as the broader public with specific Slovak experience and will prepare them for the use of sources from the ENPI program. Within the scope of the project, circa 50 representatives of Ukrainian municipalities, including SMEs active in the field of energy supplies at the municipal level will be informed in detail about the Slovak experience. The main long-term aim of the project will be the gradual increase of energy effectiveness in Ukraine which will contribute to its energy security and economic stability. The target groups of the project are: government, policy makers, representatives of cities and municipalities/local governments, media, professional and interest organizations, NGOs, business representatives and general public.
