Currency	EUR
Status	OECD approved

Description

This project is based on a strategy document at the district Ialoveni - General Water Supply and Sanitation Plan (GWSSP) at the level of Ialoveni Raion 2014-2039, which was drawn up in May 2015 within the project ApaSan supported from ODA resources Switzerland and Austria. Projekt is part of the second phase - refers specifically to the section from the built on the interconnection of Sociteni the village Bardar (see Annex 5.2 - Technical specification) and its implementation would significantly speed up the construction of the second phase of implementation GWSSP and thus would allow earlier access of the population to drinking water. The overall objective of the project is to improve the availability of drinking water and improve the environment by streamlining the system of sanitation and waste management.
