Description

In response to the famine threatening the life of many children in Duk County, organization seeks to implement a project to manage Acute Malnutrition consisting of community outreach activities that will address screening and outpatient treatment (OTP) and in-patient care in the stabilization center (SC) for most severe cases. Organization will operate one mobile OTP for management of cases of acute malnutrition and appropriate referrals in the target area for children under 5 years old and pregnant and lactating Women. Through outreach activities children and Pregnant and Lactating Women (PLW) will be screened by community nutrition volunteers and appropriately referred for treatment. This will help detection of children with malnutrition and referral for appropriate management options. Additionally, organization will establish 1 Stabilisation Center with inpatient section, consisting of at least 8 beds in Poktap, for management of severe acute malnourish patients for children under 5 yrs who present medical complications. The goal of the project is to contribute to the reduction in nutrition related mortality and morbidity, and improve access to high quality multisectoral lifesaving nutrition interventions for the most vulnerable populations notably U5 children and pregnant and lactating women.
