Description

Proposed project "Ensuring care for reproductive and mental health, including SGBV case management, for Syrian refugees and vulnerable Lebanese population in Baalbek Hermel area in Lebanon. Proposed intervention combines direct medical assistance with increasing capacity of medical staff by experience and practices sharing from crisis area with relative peace settings (Lebanon). Project activities respond to the emergency phase of the humanitarian crisis and provide an approach that saves lives of the most vulnerable groups of population while strengthening the capacities of health structures and local staff to access and cure cases of sexual violence (SGBV). Mobile Health Unit will provide interventions to promote reproductive and mental health in catchment areas in Lebanon. This project focuses on most vulnerable groups pregnant and lactating women, girls, boys, women and men and specifically on the victims of SGBV.
