## BILATERAL AID

### Promoting sustainable forest management in Serbia through the use of modern hunting management tools

#### General Information

<b>Funding entity</b>	<b>Slovak Aid</b>
Recipient Country	Serbia
Implementing Organization	Národné lesnícke centrum
Implementing Organization Code	Donor country-based NGO
Geo Location	Serbia, RS
Longitude	21.06626
Latitude	43.13859
Start of Commitment	2022-09-28
End of Commitment	2024-06-30
Currency	EUR
Status	OECD approved

#### Description

The project is aimed at promoting the sustainable forest management. The project activities are directly linked to the improving hunting management, which will contribute to the improvement of forest management in Serbia. This mainly involves the preparation of the Analysis of the current state of hunting management in Serbia and the development of a Methodology for the detection of game occurrence and potential damage to the forests. The obtained information, together with the experience gained from the implementation of study tours in Slovakia and Serbia and training activities, will enable an effective transfer of knowledge towards the target groups (forestry and hunting staff: 68 participants). The Serbian project partners will subsequently apply the project outputs in the methodological guidance and management of forestry and hunting in Serbia. The project will also prepare a proposal for a database architecture for wild game monitoring, which can form the basis for the development of a hunting information system in Serbia. In this way, the implementation of the project will also contribute to the fulfilment of the objectives of the Joint Commission for Economic Cooperation between the Slovakia and Serbia. The proposed project activities have a positive impact on gender equality. The forestry and hunting sector is completely dominated by men and therefore the participating of Serbian experts in the study tours is aimed at ensuring that the share of women is at least 25 % and that the share of trained women reaches more than 40 %.

## Commitments and Amount Extended (EUR)

Reporting Year	Commitments	Amount Extended
2022	88 176 €	44 088 €
<b>Total</b>	<b>88 176 €</b>	<b>44 088 €</b>

## Sectors share

Sector name	Share
Forestry development	100.0 %
