Status	OECD approved

Description

The presented project - Improving the quality of health services and implementation of prevention measures against Covid-19 at the key health facilities and elderly houses in the conflict-affected areas of Donetsk and Luhansk regions in East Ukraine through improving their access to WASH, information and PPE, is aimed at improving the quality of health and preventive care against Covid-19 in the conflict zones of the Donetsk and Luhansk regions in eastern Ukraine. In key medical facilities and homes for the elderly, the project focuses on strengthening the capacity of their equipment and access to water, hygiene, disinfection, sanitation (WASH) as well as protective equipment. At the same time, the presented project will improve the access of healthcare professionals, patients and clients to information on how to prevent Covid-19.
